DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Applicant's arguments filed 6/14/2010, with respect to claims 1 – 32 including the amendments to claims 1, 2, 9, 14 and 26 have been fully considered and deemed persuasive as to reasons for allowance.

The prior art fails to teach or suggest alone or in combination the limitations as seen in the Applicant's Remarks received on 6/14/2010 of a programmable cable comprising memory which stores configuration parameters for a PLC and a PIN number to activate service via a SIM on a network communication device allowing a PLC to communicate and operate in a Freeport mode and a PPI mode with a user. Prior art is further silent on motivation to combine such features and functionality and is therefore deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statements of Reasons for Allowance."
